

SHARKS: Ocean Rescue Squad

Helping to Keep Our Oceans Clean

"A Children's Books Super Quick Read" bringing together proven facts and information then presenting them in a fun, easy-to-understand manner to promote thoughtful discussion.

Designed for kids grades 4 - 7 and actually anyone interested in learning about sharks, but simply does not have the time nor desire to read large amounts of material with complicated words and concepts.

Complete with "fun" illustrations, key facts are presented in a concise, classroom-type manner. To emphasize important points, interaction occurs between the "Ocean Rescue Squad" shark figure, and "Carrots", a fictional character.

Discover how sharks play an important role in helping to clean and protect our oceans, which in turn leads to cleaner air for us to breathe. They also help to reduce global warming and support the economy. Information provided will hopefully inspire discussion on current environmental issues.

Sample: Sharks: Ocean Rescue Squad content

About Carol

After over 40 years in a business career that spanned several industries, Carol is now doing what she has always secretly wanted to do. Write kids books.

Having so much fun with her family when they were young has inspired Carol to incorporate her love of writing into a vision of creating a series of fun books for kids...helping them to learn about absolutely everything under the sun and beyond. This also gives her a chance to learn about the things she's always wanted to know but never had the time.
